CONTENTS

PART 1. APRIL

PAGE

FISHER, R. A. (Cambridge). Statistical methods in genetics 1

MOURANT, A. E. (London), and WATKIN, I. MORGAN (Aberystwyth). Blood groups, anthropology and language in Wales and the Western Countries 13

STANTON, W. R. (Hertford). Bolting, a vegetative variation in the potato . 37

MULDAL, S. (Hertford). The chromosomes of the earthworms. I. The evolution of polyploidy 55

JINKS, J. L. (Birmingham). Heterocaryosis in wild *Penicillium* 77

REES, H. (Hertford and Birmingham). Asynapsis and spontaneous chromosome breakage in *Scilla* 89

DOWDESWELL, W. H. (Tiverton), and FORD, E. B. (Oxford). Geographical variation in the butterfly *Maniola jurtina* 99

RACE, R. R., and SANGER, R. (London). The inheritance of the *Duffy* blood groups 111

SÁNCHEZ-MONGE, E. (Zaragoza). The estimation of linkage with incomplete penetrance 121

COMMENT AND REVIEWS:

SAX, K., and LUIPPOLD, H. The effect of fractional X-ray dosage on the frequency of chromosome aberrations 127

LANE, G. R., on Sax and Luippold's fractionation experiment . . 131

DARLINGTON, C. D. on Cook's human fertility: the modern dilemma . 132

DARLINGTON, C. D. on Scientific thought in the twentieth century - 132

Books Received 133

GENETICAL SOCIETY OF GREAT BRITAIN: Abstracts of Papers . . . 134

PART 2. AUGUST

WYLIE, ANN P. (Hertford). The history of the garden Narcissi . . 137

SACHS, LEO (Cambridge and Hertford). Chromosome mosaics in experimental amphiploids in the *Triticinae* 157

PALMER, T. P. (Lincoln, N.Z.). Population and selection studies in a *Triticum* cross 171

COPP, L. G. L., and WRIGHT, G. M. (Lincoln, N.Z.). The inheritance of kernel weight in a *Triticum vulgare* cross 187

BILLINGHAM, R. E., LAMPKIN, G. H., MEDAWAR, P. B., and WILLIAMS, H. LL. (London and Edinburgh). Tolerance to homografts, twin diagnosis, and the freemartin condition in cattle 201

PAGE

HOLT, H. A., THOMPSON, J. S., SANGER, R., and RACE, R. R. (London). Linkage relations of the blood group genes of man 213

CAIN, A. J., and SHEPPARD, P. M. (Oxford). The effects of natural selection on body colour in the land snail *Cepaea nemoralis* 217

SHEPPARD, P. M. (Oxford). Natural selection in two colonies of the polymorphic land snail, *Cepaea nemoralis* 233

SHEPPARD, P. M. (Oxford). A note on non-random mating in the moth *Panaxia dominula* (L.) 239

DAWSON, G. W. P. (Dublin). The frequency of the A B O blood groups in Dublin 243

SNELL, G. D. (Bar Harbour, Maine). Preliminary data on crossing-over between *H*-2 and *Fu*, *Ki* and *T* in the mouse 247

FALCONER, D. S. (Edinburgh). Location of " Reeler " in linkage Group III of the mouse 255

MAINLAND, G. B. (Auburn, Alabama). Epistatic ratios involving two phenotypes 259

WINGE, Ö. (Copenhagen). The genetic situation concerning fermentation in yeasts 263

COMMENT AND REVIEWS:

BAILEY, N. T. J., on Catcheside's Genetics of Micro-Organisms . . 271

PONTECORVO, G., on Genetics in the Twentieth Century . . . 273

MEDAWAR, P. B., on Darlington and Mather's Genes, Plants and People 274

LEWIS, D., on Morton's Soviet Genetics 276

Short Reviews 277

GENETICAL SOCIETY OF GREAT BRITAIN: Abstracts of Papers . . . 279

PART 3. DECEMBER

BATEMAN, A. J. (Hertford). Self-incompatibility systems in angiosperms. I. Theory 285

CAVALLI, L. L., and MACCACARO, G. A. (Cambridge). Polygenic inheritance of drug-resistance in the bacterium *Escherichia coli* 311

LAMOTTE, M. (Paris). Le rôle des fluctuations fortuites dans la diversité des populations naturelles de *Cepaea nemoralis* (L.) 333

SHARMAN, G. B., and BARBER, H. N. (Tasmania). Multiple sex-chromosomes in the marsupial, *Potorous* 345

SACHS, LEO (Cambridge and Hertford). Polyploid evolution and mammalian chromosomes 357

DOWRICK, G. J. (Hertford). The chromosomes of *Chrysanthemum*. I. The species 365

PAGE

HASKELL, GORDON (Hertford). Genetics of cold tolerance in maize and sweet corn seed 377

NELDER, J. A. Some genotypic frequencies and variance components occurring in biometrical genetics 387

SEARLE, A. G. (London). A lethal allele of dilute in the house mouse . . 395

OSTER, IRWIN I. (Bloomington, Indiana). A study of ultraviolet induced lethal mutations in *Drosophila melanogaster* 403

REVIEWS:

DARLINGTON, C. D. On Hughes' mitotic cycle 409

Short Reviews 409

INDEX 411
